Redevco appoints Chris Fleetwood Portfolio Director UK

Amsterdam, January 18, 2022 – Redevco, one of Europe's largest privately-owned real estate investment managers, announced Chris Fleetwood to join its UK business as Portfolio Director as of January 24, 2022. He will be reporting to recently appointed Co-head Client & Fund Management Thierry Cahierre, who will also continue to lead the global Asset & Development Management function.

Thierry Cahierre, Co-head Client & Fund Management at Redevco: "We are very pleased to welcome Chris on board. His extensive expertise of more than 30 years across occupier, agency and developer environments will be of great value to further build a strong, diversified, mixed-use portfolio in the UK and help Redevco fulfil its mission to help cities become more sustainable and liveable places."

Chris Fleetwood, Portfolio Director Redevco UK: "I am excited to start my new role in Redevco as it enters an exciting phase of expansion and diversification. I am especially looking forward to working with their professional team based out of London to help Redevco's transition from a retail to an 'urban domain' specialist, re-purposing retail to mixed-use and investing in new sectors like residential and leisure & hospitality."

Chris will succeed Andrew Foulds who has been with Redevco for more than 10 years and has been working an extended notice period to create continuity for the UK team, after having decided mid-2021 to pursue his career elsewhere. Andrew joined Redevco in 2011 as Portfolio Director and developed an excellent track record in creating value through leasing and asset & development management. He was instrumental in transforming and upgrading the -predominantly retail- UK portfolio significantly. In this context Andrew was responsible for realising the major redevelopment of the iconic retail and cultural quarter Hanningtons Lane in Brighton, in addition to executing Asset and Development projects throughout the UK.

Chris joins from Landsec where he was Development Director.
